

Transient Protection

from Spikes and Surges that Can Damage Equipment

SPECIFICATIONS

- ❖ Ultrasafe design incorporating interlocked disconnect handle for internal inspection and repairs.
- ❖ Our most recent revision of this product utilizes “State of the Art” **SURGE BRIX** technology. This combines performance, reliability and flexibility in one small replaceable package to meet with most service entrance and special applications.
- ❖ The Surge Pack is virtually maintenance free with only annual inspection recommended. A built in alarm circuit will annunciate local and remote if a problem exists.
- ❖ Installation is via a simple three wire connection. No other equipment required.
- ❖ Integral Disconnect Switch with 200KA IC Surge Rated Fusing
- ❖ AC Data Systems Surge Brix Surge Arrestors.
- ❖ NEMA 3/3R Enclosure
- ❖ Fuse and Arrestor Failure Alarm
- ❖ Field Replaceable Surge Protection Modules
- ❖ 80KA Per Phase Peak Current Capacity
- ❖ 208 / 480 / 600 V
- ❖ Solid and High Resistance Grounded Applications.
